

UMA MAHESWAR KOYA

+916309242547 ◇ Andhra Pradesh, India

koyaumamaheswar.14@gmail.com ◇ [LinkedIn](#) ◇ [GitHub](#) ◇ [LeetCode](#)

PROFESSIONAL SUMMARY

B.Tech Information Technology student with expertise in Java, Spring Boot, Data Structures & Algorithms, and backend development. Experienced in building REST APIs, microservices, and database-driven applications using MySQL. Seeking a Software Engineering Internship.

EDUCATION

Vishnu Institute of Technology

Bachelor of Technology (B.Tech) in Information Technology

2024 – 2028

CGPA: 8.2/10

Narayana Junior College

Board of Intermediate Education, Andhra Pradesh

2022 – 2024

Percentage: 91.6%

SKILLS

Languages Java, C, Python

Backend Spring Boot, Java Servlets, Microservices, Spring Cloud Gateway, REST APIs, JWT

Databases MySQL, Firebase Firestore

Tools Git, GitHub, Docker, Maven, Postman, VS Code

Core CS Data Structures & Algorithms, OOP, DBMS, Operating Systems

PROJECTS

DevFlow — Spring Boot, Microservices, Spring Cloud Gateway

[GitHub](#)

- Built a microservices-based DevOps platform using Spring Boot and Spring Cloud Gateway.
- Developed Repository and Build microservices with REST APIs to manage repository operations and build workflows.
- Configured Spring Cloud Gateway for centralized routing across multiple backend services.
- Designed loosely coupled microservices to improve modularity, maintainability, and enable independent service development.

MyJourney — Java, Spring Boot, Telegram Bot API, Firebase

[GitHub](#)

- Developed a Telegram-based learning and knowledge management bot using Spring Boot and Firebase Firestore.
- Implemented category management, information search, state-based workflows, and PDF report generation with filtering.
- Built interactive Telegram reply-keyboard workflows for navigating categories and managing learning information.

Online Examination System — Java Servlets, MySQL

[GitHub](#)

- Developed a web-based Online Examination System using Java Servlets and MySQL to automate examination and result management.
- Implemented secure user authentication and role-based access for administrators and students.
- Designed and normalized MySQL database schemas to efficiently manage users, exams, questions, and results.
- Built CRUD modules for managing exams, questions, student records, and examination results.

CERTIFICATIONS & ACHIEVEMENTS

- **JPMorgan Chase Software Engineering Job Simulation** – Forage
- **Walmart Advanced Software Engineering Job Simulation** – Forage
- Solved **200+** Data Structures and Algorithms problems across multiple coding platforms.
- Achieved a **4-Star** rating in **Java** on HackerRank and earned the **100 Days Badge** on **LeetCode**.
